

**FL - Floodlight Low Wattage
Knuckle Mounting**
Fluorescent Quad Tube 1 x 42 W
High Pressure Sodium 35 – 150 W
Metal Halide 50 - 100 W

DESCRIPTION

The FL is a compact floodlight for lower wattages. U.L. listed for wet locations.

APPLICATION

Ideal for all low wattage floodlighting applications in commercial, industrial and residential areas. Can be used for floodlighting signs, objects and for security lighting around buildings. An energy saving alternative to twin PAR lamp fixtures.

HOUSING

The housing is made of high pressure die cast aluminum and finished in a dark bronze polyester powder coat paint finish for lasting corrosion resistance. Housing is slightly deeper for MH 70-100W.

BALLAST

HPS 120V ballasts are Reactor – NPF. Metal Halide ballasts are either High Reactance or Constant Wattage Autotransformer ballasts. Minimum starting temperature is -40°F (-40°C) for HPS and -20°F (-30°C) for MH. Electronic ballasts for Fluorescent 1x26, 32 or 42W in 120V.

SOCKET

Medium base, 4KV pulse rated porcelain socket for HID lamps. Positive latching thermoplastic socket for fluorescent lamps.

MOUNTING

Versatile knuckle mount allows mounting on walls, floors and into 1/2" NPS outlet boxes.

REFLECTOR

Die formed, anodized aluminum.

DOOR & LATCH

Die cast aluminum door. Stainless steel door frame latching clip.

LENS

Clear tempered glass, impact and heat resistant.
