

Lumenform

FS - Floodlight Sportlight High Pressure Sodium 1000 W Metal Halide 1000 - 1500 W

DESCRIPTION

The FS is an exceptional sports lighting floodlight for up to 1500W lamps. U.L. listed for wet locations.

APPLICATION

Suitable for sports lighting applications as well as general floodlighting of large outdoor areas where a high light level is needed. Can be aimed upwards for facade lighting.

HOUSING

The ballast housing is a combination of die cast and hydroformed aluminum and finished in a dark bronze polyester powder coat paint finish for lasting corrosion resistance. The ballast and socket housings are separated for cooler operation and longer life.

BALLAST

High Power Factor, Constant Wattage Autotransformer ballasts. Multi Tap (120/208/240/277V) or 480V ballasts. Minimum starting temperature is -40°F (-40°C) for HPS and -20°F (-30°C) for MH.

SOCKET

Mogul base, 4KV pulse rated porcelain socket.

MOUNTING

Integral 5/8" mounting bolt allows mounting directly to cross arm. Exposed bolt length is 1 3/4".

REFLECTOR

Precision spun anodized aluminum. Available in NEMA 6x6 (wide) beam pattern.

GASKET

Silicone rubber for long life.

LENS

Clear tempered glass, impact and heat resistant. Secured with three stainless steel latches. Safety chain provided for additional security during relamping.

EPA

Effective Projected Area is 2.5.
