

DESCRIPTION

The VSR is a 5" x 8" Vandal Resistant Surface Mounting Rectangular fixture for up to Fluorescent twin tube 1 x 13W, or incandescent lamps up to 75W. Its tough polycarbonate lens makes it ideal for high abuse, vandalism prone areas. U.L. listed for wet locations.

APPLICATION

Suited for public areas such as underpasses, parking garages, cold storage rooms, building perimeters, schools, corridors and stairwells.

HOUSING

The back plate is made of steel and finished in a dark bronze polyester powder coat paint finish for lasting corrosion resistance.

BALLAST

Normal Power Factor, Reactor 120V ballast for fluorescent twin tube 1x7W or 1x13W lamps.

SOCKET

Medium base porcelain socket for incandescent lamps. Positive latching thermoplastic socket for fluorescent lamps.

REFLECTOR

Anodized aluminum reflector for high efficiency.

GASKET

Silicone rubber for long life.

LENS

Tough injection molded polycarbonate for extra impact resistance. UV stabilized.
